Letter of Recommendation

To whom it may concern

We, Advanced Medical Institute, are specialised multinational medical service provider with 1 million plus patients using our treatments across Australia and more in Asia pacific region. We have been using MBCD 1.3 -1 coating machine since early 2011.

It's been used on a daily basis, and proved to be robust, reliable, easy to operate and very accurate reading of film speeding.

We highly recommend MBCD 1.3-1, should you require more information on this please do not hesitate to contact us.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Jack Vaisman', with a long, sweeping flourish extending to the right.

Jack Vaisman

Chairman: Advanced Medical Institute
